Free Debt & Circuses: Protecting Business Owners From Their Enemies, Their Allies, and Themselves by Clay Westbrook

Communication strategy, crisis management, negotiation techniques, and behavioral tactics for financially distressed companies, told through the stories of a turnaround and restructuring consultant. How do you protect yourself, or your clients, or your family and friends from aggressive creditors, lawsuits, and bureaucracy? When do you need protection from the advice of your own advisors and friends? Debt & Circuses is a true story of seven years of loan workouts, lawsuits, and bankruptcies during the Great Recession (2009-2015) and beyond. Debt & Circuses explains real-world negotiation strategy and social psychology tactics through the true stories of finance and accounting advisors, lawyers, and courageous entrepreneurs who followed the counter-intuitive, asymmetrical, and risky advice of a few consultants. Applying principles of behavioral economics, psychology, finance, and common sense, Debt & Circuses demonstrates through first-hand experiences effective methods of: Preparing the mind (and your assets) for conflict. Coping with emotional pressure tactics. Responding to unreasonable demands constructively. Preventing the two things that produce an unfavorable outcome. Negotiating with inferior bargaining power. Going on offense against an opponent with unlimited resources. Capitalizing on bureaucratic failures. Avoiding the big mistake made by all companies in financial distress. Clay Westbrook is a writer, communications strategist, behavioral consultant, analyst and negotiation advisor. His consulting firm combines elements of behavioral economics, qualitative research, and financial and legal experience to (a) analyze data to understand companies and industries from all angles, (b) formulate strategies and methods to discover and solve problems, and (c) develop the communication strategy to achieve the client's goals.
